CLASSIFICATION: FIRESTOPPING SEALANT

PRODUCT DESCRIPTION: ALL THREE GRADES OF METACAULK® 1200 ARE A SINGLE COMPONENT, GENERAL PURPOSE FIRE RATED SEALANT FOR CONSTRUCTION JOINTS SUCH AS TOP OF THE WALL, CURTAIN WALL PERIMETER, EXPANSION, CONTROL, ETC. AND FOR GENERAL CONSTRUCTION GAPS AND VOIDS. METACAULK® 1200 IS A WATER BASED SEALANT THAT COMES IN THREE DIFFERENT GRADES. METACAULK® 1200 MASTIC GRADE IS DESIGNED FOR SPRAY APPLICATIONS AND PROVIDES A FAST, ECONOMICAL MEANS OF INSTALLATION ON LONG JOINT RUNS. METACAULK® 1200 SELF-LEVELING (SL) SEALANT IS MADE FOR HORIZONTAL APPLICATIONS WHERE QUICK INSTALLATION IS NECESSARY. METACAULK® 1200 CAULK GRADE IS A NON-SAG SEALANT THAT IS EASY TO APPLY FROM A CAULK GUN OR TROWELED. IT CURES TO AN ELASTOMERIC MEMBRANE SEAL THAT IS SUITABLE WHERE DYNAMIC MOVEMENT IS EXPECTED. IN THE EVENT OF A FIRE, METACAULK® 1200 WILL PREVENT THE SPREAD OF FLAMES, SMOKE, HOT GASES AND WATER THROUGH THE JOINT OPENINGS: NO DILUTION OR MIXING IS REQUIRED FOR USE. METACAULK® 1200 CAN BE CAULKED FROM A TUBE, BRUSHED OR TROWELED FROM THE PAIL, APPLIED WITH A SPRAY PUMP OR Poured. METACAULK® 1200 SYSTEMS ARE RATED FOR UP TO 4 HOUR CONDITIONS IN ACCORDANCE WITH ASTM E1966/UL 2079 (TESTS FOR FIRE RESISTANCE OF BUILDING JOINT SYSTEMS) TEST STANDARDS. METACAULK® 1200 HAS BEEN CYCLED 500 TIMES, MEETING THE NEW ASTM E 1399 STANDARD. ALSO TESTED IN ACCORDANCE WITH ASTM E 814 (UL1479) FOR SYSTEMS UP TO 4 HOURS.

**CONTENT IN DESCENDING ORDER OF QUANTITY**

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

**INVENTORY AND SCREENING NOTES:**

"This HPD was created with Basic Inventory."

**VOLATILE ORGANIC COMPOUND (VOC) CONTENT**

VOC Content data is not applicable for this product category.

**CERTIFICATIONS AND COMPLIANCE**

No certifications have been added to this HPD.
Section 2: Content in Descending Order of Quantity

This section lists materials in a product and the substances in each material based on the Inventory Threshold for each material. If residuals or impurities from the manufacturing or extraction processes are considered for a material, these are inventoried and characterized to the extent described in the Material and/or General Notes. Chemical substances are screened against the HPD Priority Hazard Lists for human and environmental health impacts. Screening is based on best available information; "Not Found" does not necessarily mean there is no potential hazard associated with the product or its contents. More information about Priority Hazard Lists and the GreenScreen can be found online: www.hpd-collaborative.org and www.greenscreenchemicals.org.

Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

Section 5: General Notes
MANUFACTURER INFORMATION

MANUFACTURER: RectorSeal LLC
ADDRESS: 2601 Spenwick Drive
Houston, TX 77055
USA

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator, and when available, full GreenScreen assessments. The HPD Open Standard does not provide an assessment of health impacts throughout the product life cycle. It does not provide an assessment of exposure or risk associated with product handling or use. It also does not address potential health impacts of: (i) substances used or created during the manufacturing process unless they remain in the final product, or (ii) substances created after the product is delivered for end use (e.g., if the product burns, degrades, or otherwise changes chemical composition).

The HPD Open Standard was created and is maintained and evolved by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry. The HPD Collaborative is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

A disclosure completed in compliance with the HPD Open Standard is referred to as a “Health Product Declaration,” or “HPD.” The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD Open Standard noted.
